Company: Landform Professional Services, LLC

Job Title: Survey Field Technician

Job Location: Twin Cities and surrounding areas

Landform is a multi-disciplinary consulting firm based in Minneapolis with offices in Eagan and Elk River. We offer a full range of site design, planning and civil engineering services backed with over 20 years as an organization. Our professional resources include landscape architects, planners, civil engineers, land surveyors and development managers. We are committed to client service, design quality, principles of sustainability and an innovative approach to site design.

Our culture is based on our vision to grow and diversify while emphasizing quality design, strong client partnerships and an energetic employee environment. We value quality, relationships, mentorship, leadership and enthusiasm in our work. We achieve our mission by helping our public and private sector clients create successful memorable, SensiblyGreen® places.

We are looking for a Field Technician to join our Survey Department. Qualified candidates must be a team player with good communication skills that have the ability to work directly with field crews. They will need to learn field operations, the transfer of data to and from the field and have the ability to work in physically demanding situations which require carrying equipment, standing for long periods of time, walking long distances, and working in adverse weather conditions. Being proficient in using Trimble equipment and software is preferred.

You must have a valid driver's license and a clean driving record.

This position reports directly to the Survey Coordinator.

Initial responsibilities include:

- Assist Crew Chiefs.
- Downloading field notes, collecting field data.
- Assist in calculating boundaries from record maps and deeds.
- Perform survey calculations.
- As-built preparations.

Full-Time/Part-Time/Hours: Full-Time 40-50 hours per week

Salary: DOQ

Benefits: Health, dental, life, disability, PTO, 401K Employer contribution, Fun and relaxing atmosphere
