Company: Landform Professional Services, LLC

Job Title: Survey Crew Chief

Job Location: Twin Cities and surrounding areas

Landform is looking to grow our team of energetic professionals by adding a Crew Chief to our team!

Landform is a multi-disciplinary consulting firm based in Minneapolis with offices in Eagan and Elk River. We offer a full range of site design, planning and civil engineering services backed with over 20 years as an organization. Our professional resources include landscape architects, planners, civil engineers, land surveyors and development managers. We are committed to client service, design quality, principles of sustainability and an innovative approach to site design.

Our culture is based on our vision to grow and diversify while emphasizing quality design, strong client partnerships and an energetic employee environment. We value quality, relationships, mentorship, leadership and enthusiasm in our work. We achieve our mission by helping our public and private sector clients create successful memorable, SensiblyGreen® places.

We are looking for a Crew Chief to join our Survey Department. The responsibilities of a Crew Chief will encompass a full range of field services for major projects and clients.

To be considered for this position, candidates must have:

- 3-5 years of experience
- valid drivers license
- proficiency with **Trimble equipment and software**, field data collection for all types of survey and construction staking
- experience with reading and working with survey drawings (topographic, ALTA/NSPS Land Title Surveys, and boundary drawings) and construction plans (civil, architectural, and structural).
- knowledge of a variety of survey equipment such as levels, data collectors, total stations and static/RTK GPS.

The candidate must also have the ability to work in physically demanding situations which require carrying equipment, standing for long periods of time, walking long distances and working in adverse weather conditions. Good communication skills are a must.

Responsibilities:

- Coordinate, lead and manage a field crew to complete all surveying activities for projects in the field by providing direction and leadership.
- Demonstrate safety, cost control, efficiency and professionalism.
- Maintain and demonstrate exceptional internal and external client relations and the ability to work collaboratively with diverse teams.
- Travel within Minnesota and surrounding states.
- Locate, identify and record the necessary survey data needed to complete boundary and topographic surveys.

- Compile accurate notes, records and sketches to describe work performed; organize and manage survey project data, prepare legible and accurate cut sheets in a timely manner with a strong attention to detail.
- Transmit survey data to the proper files on the computer network, which includes sending data to the office from remote locations on a daily basis and be able to acquire the data for field use when necessary.
- Work efficiently and effectively under tight deadlines as well as balance multiple projects.
- Maintain inventory and quality care of field supplies, equipment and technology.
- Perform the tasks of crew member when necessary.
- Work in adverse weather conditions
- Lift or move objects up to 100 pounds

Full-Time/Part-Time/Hours: Full-Time

Salary: DOQ

Benefits: Health, dental, life, disability, PTO, 401K Employer contribution, Fun and relaxing atmosphere
